Solutions and Resources for Today's Forest Management Challenges

Join forestry professionals from around the world and explore how they use GIS to

- Calculate land values
- Evaluate resource assets
- Automate data storage and management
- Increase forest revenue and economic value
- Support and track regulatory activities

This conference is a unique opportunity to learn about projects from forestry users, talk to onsite GIS specialists, participate in discussions and workshops, and explore the advantages of GIS in a setting just for foresters.

**Hosted by the
Esri Forestry Group**

**May 1–3, 2012
Esri Headquarters
Redlands, CA**
